

MINDSIGHT

school-based therapy solutions

ELEVATING MENTAL WELLNESS PREVENTION
AND INTERVENTION IN YOUR SCHOOL DISTRICT

MINDSIGHT PHILOSOPHY

We are data-driven with transparent clinical results

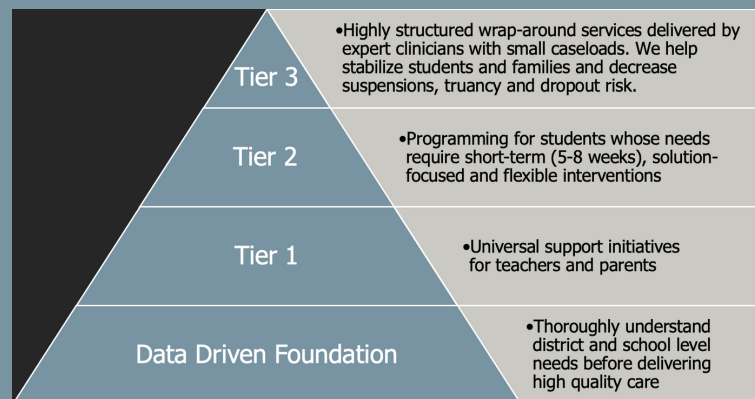

We are systems-focused. Our MTSS model aligns with school structures and needs

We strive for a fully integrated collaboration with school counselors, teachers, administration and district personnel

We are built on multiple levels of supervision for therapists; including coaches, clinical supervisors and directors

We offer customizable programming and services for individual districts and schools

Mindsight's MTSS Framework

Through years of personal and professional experience, Mindsight has developed a deep knowledge and fundamental passion for school-based mental health solutions. Through our Multi-tiered System of Supports (MTSS) framework, Mindsight aims to specifically meet the mental health needs in your district. We hope to join you in generating targeted and creative solutions for each tier in the MTSS framework.

We want you to know... Mindsight will forever have the heart of a "start-up" - imminently adaptive, focused exclusively on your unique needs, and always embedded within your culture.

We care intensely about community partnerships, and caring for one another. We are excited to collaborate with you. This is going to be fun.
